

## THE POWER OF THE HUMAN MIND

According to research at Cambridge University,  
it doesn't matter in what order the letters in a word are.  
The only important thing is that the first and last letter  
be in the right place. The rest can be a total mess  
and you can still read it without a problem.  
This is because the human mind does not read every  
letter by itself but the word as a whole.

The above passage clearly demonstrates the  
amazing power of the human brain.

Because of the ability of human beings to be able  
to communicate by means of reading and writing,  
this places us in a league of our own.

The intelligence gap between human beings and  
animals is so enormous that it is impossible to  
conceive of any genetic or biological link between  
the two. Mankind has within him a spiritual  
component not shared with any other animal.

So God created man in his own image, in the image  
of God created he him; male and female created he  
them. Genesis 1 : 26
